**Preliminary Amendment/Response in Application**

In response to the Examiner's office action dated December 5, 2001 and the Advisory Action dated May 1, 2002, Applicants present the following amendment and arguments in this preliminary response to the outstanding Examiner's rejection. The claims in the application are claims 1-22; original claims 1-21 remain pending in this application and are not amended in this response. Claim 22 is new.

It is respectfully submitted that the Examiner's rejection of the present application, which is based upon the Examiner "cherry-picking" the elements of Applicants' invention in hindsight from a disclosure in the "Background of the invention" section of a cited patent reference taken without reference to any other supporting disclosure is insufficient for purposes of rejecting the present invention. Applicants therefore respectfully request the Examiner to withdraw the pending rejection and allow the instant application.

**In the Claims:**

New claim 22 is presented here. Claims 1-22 are now pending in the present application.
